WRITING

My smartphone is my best friend!  
You know, that world has many interesting technologies I want to talk about you about phone. It is not usual phone — it is smartphone. Smartphone is smart and, I think you know it. Smartphone has brain, but it is not usual brain — it is robot's brain. Now we have really smart phones. But I think they will upgrade and they will be smart so much. Maybe in the future they will walk? I do not know. I think it is so funny. I use my smartphone very often. For reading, for communication. I like playing games. I like to listen to music. My friends have smartphones too. My mother has smartphone, my brother has smartphone and my father too. It is good. We can not live without smartphones. My little sister wants smartphone, but she is so small for it. It is so strange because I did not have phone, when I was little. That is all.
